Guarantee - Complaints

In spite of the best procedures and quality controls, sometimes mistakes are made and you could possibly receive incorrect or damaged product. Please note that as the customer, it is your responsibility and in your best interest to notify us within 2 weeks of any incorrect, defective or damaged goods. Your right to return defective goods and receive a refund or replacement only applies to this period of time.

For prompt processing of a return, we need a copy of invoice as well as a detailed description of the reason for the return. During the guarantee period of 6 months from receipt of goods, we will either repair, partially or completely replace the item in question. If the replacement or repair is not satisfactory, the customer has the right to make a deduction from the amount of the invoice or cancel the contract.

We are not liable for defects that result from improper handling or operation, above average strains or demands, outside stresses, or locking parts.

Damages in transit

Please immediately check every delivery for completeness and damages. If the external packaging is damaged or resealed with tape by the delivery company, you should complain immediately to the delivery service and confirm this complaint in writing. If you are in doubt, you can refuse to accept the package and contact us. We will arrange the quickest possible resolution, replacement or re-shipment.

Liability

Our liability is limited exclusively to damage caused by deliberate and gross negligence. Any further liability is excluded. The customer does not have the right to make deductions or withhold payment, in cases in which claims are undisputed or legally binding and fairly determined. Should individual provisions of this contract completely or partially not conform to current laws, or if they later become nonconforming, the validity of the contract will not be affected. In this case the parties to the contract are required to replace the unworkable provision with a mutually agreeable settlement, as far as it is legally possible, so that the economic purpose of the contract is not altered for either party. This is also valid if the contract is viewed by one party to hold an unforeseen loophole.

Miscellaneous

The customer does not have the right to make deductions from or withhold payments. Should individual provisions of the contract either completely or partially not conform to legal requirements or later lose their conformity, the validity of the contract will not be affected. In this case both parties to the contract are obligated to find a workable and mutually agreeable substitute for the unworkable provision, and as much as possible, not affect the financial intentions of the contract for either party. This also applies if one party finds previously unforeseen loophole in the contract.
